

POSITION VACANT – Sleep Technologist – Full Time

Sleep Studies Australia is an innovative sleep disorders clinic offering careers in the area of adult sleep medicine. We offer a full range of services including ambulatory and in patient polysomnography, CPAP trials and sleep physician consultation.

We are seeking a full-time sleep technologist to join our expanding professional team working primarily from our Attadale and Wembley rooms.

Duties will include the scoring of diagnostic sleep studies, implementation and follow up of treatments for Obstructive Sleep Apnoea including CPAP and TSD in recently diagnosed patients and finally the application of monitoring equipment.

Applicants must possess a science or nursing degree. Previous experience in a clinical sleep or sleep research role is highly desirable.

Please forward a cover letter and resume via e-mail to reception@sleepstudies.com.au

Closing date is 30 January, 2012
